

## Environmental & Sustainability Policy

Devon & Cornwall DC Power Ltd. accepts its environmental responsibilities and recognises its obligations to contribute to the resolution of global and local environmental issues by reducing its environmental impacts and by taking a leading role in promoting environmental awareness and waste control good practice.

Devon & Cornwall DC Power Ltd is committed to implementing fully an ISO 14001:2015 compliant Integrated Management System (IMS), to help ensure that the protection of the environment and the prevention of pollution are key objectives and central to the running of the business.

Therefore, the Company will:

- Continue to comply with all relevant legislation and codes of practice;
- It will ensure it can meet all of its Compliance Obligations;
- It will seek to continually improve its environmental performance and the performance Environmental Management System;
- Quantify and reduce its environmental impacts, taking into consideration the life cycles perspectives of its products and materials;
- Integrate environmental considerations with all planning and design decisions, activities, maintenance and processes;
- Manage its estate including sustainable development principles where possible;
- Ensuring office waste for waste removal or disposal is with approved suppliers who have suitable environmental policies and practices in place. In disposing of confidential waste due reference should be made to the current legislation relating to data protection.
- The removal and disposal of installation waste includes separating and segregating, WEEE, scrap waste, such as paper, steel, chemical products and general waste. The company is registered as a waste carrier, and we have a duty of care to dispose of our hazardous waste in line with current legislation.
- Improve staff environmental and waste control awareness and understanding and carry out additional training whenever required.

These commitments will be demonstrated through the introduction of suitable policies, practices and programmes. Their effectiveness will be monitored by evaluating the Company's environmental and waste control performance and publishing the results to the entire Company, thereby encouraging efforts to comply with the Environmental and Sustainability Policy.

This policy statement will be reviewed annually by the Board of Devon & Cornwall DC Power Ltd.

Eric Hall....., 9th February 2023.

For and on behalf of Devon & Cornwall DC Power Limited.
